

Aurora Series

Nevada Sun™

Nevada Sun is a unique lamp that gives tanners a deep dark russet brown color. This hot lamp is for serious tanners who want to feel the power when they tan. Nevada Sun gives an intense tan and beautiful color. You'll see and feel the results.

Part #	Description	Watt	Rated Life	UVB%	UVA	TE Min.	TE Max.

Equator Sun™

This is the ticket to paradise. For serious tanners only, Equator Sun offers tanners a tropical experience and darker results. Specifically for Type 3 with a good base tan, this lamp results in the darkest tan available for short session times.
